The Safe Shot™ Double Wall Series is dedicated to optimally engineered firearm protection—blow molded construction that protects contents with two HDPE walls encasing an internal air pocket. Made in the U.S.A., this series is the first and last line of defense you'll ever need to keep your weapons protected during the roughest of conditions encountered during transit. Used for transportation or simply for storage, the patented anti-corrosion Zerust® tab included and double wall protection keeps firearms preserved to perform.
